

MD. SOHAN PERVES

FRONT-END WEB DEVELOPER

Jhenaidah, Bangladesh | mspsohan@gmail.com | +8801789216063 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

As a skilled front-end developer with expertise in the MERN stack, I aim to contribute my creativity and technical proficiency to dynamic web development projects, fostering innovation and delivering impactful user experiences.

SKILL HIGHLIGHTS

Expertise: React.js | JavaScript | React Router | Axios | React Query | Tailwind Css | Express.js

Comfortable: Material UI | Git | MongoDB | Mongoose | Firebase | JWT Token

Familiar: Next.js | Node.js | Stripe

Tools: VS Code | GitHub | Netlify | Chrome Dev Tools | Postman | Figma

FEATURED PROJECTS

1. InventoHub - (Inventory Management)

[Live Preview](#) | [Front-end Repo](#) | [Backend Repo](#)

Key Features:

- Developed a modern Inventory Management System web application using MERN stack.
- Enabled easy product management with features like adding, updating, and deleting products via user-friendly interfaces and utilized RESTful APIs for seamless communication.
- Improved user experience with a responsive design. Added roles for managers and admins, providing custom dashboards for better insights.

Technology Used: React.js, Tailwind CSS, Material UI, Payment Gateway, Express.js, Mongoose, MongoDB, JWT, Firebase

2. Cosmico - (Online Shop)

[Live Preview](#) | [Front-end Repo](#) | [Backend Repo](#)

Key Features:

- Enable customers to easily explore and purchase products with a simple and intuitive online store interface.
- Implement a safe and hassle-free shopping experience by integrating a secure shopping cart and Stripe payment system.
- Empower administrators with a streamlined dashboard for seamless product management, allowing easy addition, editing, and deletion.

Technology Used: React.js, Tailwind CSS, Payment Gateway, Express.js, MongoDB, Firebase

3. The library - (Library Management)

[Live Preview](#) | [Front-end Repo](#) | [Backend Repo](#)

Key Features:

- User-friendly system with quick book search, ensuring simplicity and secure access for an enjoyable library encounter.
- Integrated a search functionality using React and leveraged MongoDB for efficient data storage.
- Established a safe login system for controlled access, ensuring the security of library data and a hassle-free user experience.

Technology Used: React.js, Tailwind CSS, Express.js, MongoDB, JWT, Firebase

EDUCATION

Bachelor of Social Science (BSS) at National University

2018 – Present
